Bill, Tommy and Frank Tomlinson

Dear friends—old and new:

Before you examine our newest and greatly improved catalog for 1962 we wish to take time out to thank our rapidly growing clientele for their loyal support in the years past.

It is because of your satisfaction and trust in us that we have been able to continue our rapid expansion program at a pace that not even we ourselves had thought possible. Your constant demand for better quality, service and competitive prices, compelled by the fast changing times, has been our yardstick in laying out our vast program for the future of SELECT NURSERIES, INC. We are also well aware of the need of new developments of plant-material to suit an ever hungry desire for better things in our garden of today. In scanning our catalog for 1962, you will find that we have not been idle in that respect either. We sincerely hope that this book will be a constant guide to you in your business and that it will encourage you to come and visit us, any time. For our out-of-towners, near or far, please let us know how we may be of service in assisting you with any of your traveling problems. Remember too that you are always welcome at SELECT.

FUMIGATION

We maintain a modern Fumigatorium, approved by the State Agricultural Commission, for the convenience of those states whose laws require fumigation of incoming plant shipments. This operation is supervised by local horticultural inspectors. However, Select Nurseries, Inc., cannot assume responsibility for any damage or loss due to fumigation.

This service is rendered at our cost which is as follows:

2 1/4" pots.....	2¢	5 gal.....	25¢
3" pots.....	4¢	7 gal.....	40¢

5 gal. cans.....	\$1.00	Flat cost.....	30¢

LINERS

We are one of the largest contract growers of liners in California. With our ultra-modern propagating facilities, where we are on a disease-free program, our cuttings receive the "little extras" that add up to stronger rooted liners. We will be more than happy to go over your future liner lists, at your convenience, and quote prices that we feel will be to your liking.

DAZZLING NEW ICE PLANT

This new bush form Ice Plant has brought a brilliant new look to the Mesembryanthemum family of garden plants. It grows tall enough to be used as a hedge up to four feet high and in ornamental plantings. It is available in four distinct colors of large blooms that lavishly cover each plant in early spring and late summer. The rich, deep, evergreen foliage makes it a truly handsome plant even during the fall and winter months.

Their outstanding beauty makes them truly a garden gem in the warm interior valleys or the cool coastal areas. Their care needs are so slight . . . just a little water, lots of sunshine and absolutely no pruning.
